DETAILED ACTION

Allowable Subject Matter

1. Claims 1-36 are allowed.

The following is an examiner's statement of reasons for allowance:

2. The prior art teaches resistive material used in vias in a substrate. The prior art also teaches that integrated circuits have impedance matching on the inputs and outputs of the circuit. The prior art does not teach any obviousness of the combination of having resistive vias that are filled with a resistive material and the impedance is matched with the input and/or output impedance of the integrated circuit, which the vias are electrically connected to. Since the prior art teaches no reasons of obviousness the Applicant's invention is found novel.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
